

Action Plan for the smooth operation of flights and the operation of airports and ports, to be abolished

The Council of Ministers, following a proposal by the Ministry of Transport, Communications and Works, decided, at today's meeting, to abolish the Action Plan for the smooth operation of flights and the operation of Cyprus Airports and Ports.

Specifically, the Council of Ministers, taking into account the improved epidemiological picture currently prevailing both in Cyprus and globally, has approved the abolition of the existing Action Plan implemented at Larnaka and Pafos Airports and Cyprus Ports. According to the decision, all travellers arriving in the Republic of Cyprus, irrespective of their country of origin, will not be required to present a valid certificate of vaccination or recovery or a negative result from a PCR or antigen rapid test. **The Action Plan will be abolished as of 1 June 2022.**

Speaking after the meeting of the Council of Ministers, the Minister of Transport, Communications and Works, Mr Yannis Karousos, said the decision was an important one, by which we are returning to normality in terms of travel.

With regard to the occupancy rate of flights, the Minister said that this is at a very high level and pointed out that for the month of May it is estimated that passenger traffic will reach 77% of the corresponding period in 2019, with an average of 30.000 passengers per day. "Efforts are being made, of course, to further increase this percentage and the occupancy rate, and the results are quite positive. The target we had set regarding flight occupancy and the number of passengers, will not only be reached but exceeded," Mr Karousos stressed.

Asked if the mandatory use of masks inside airports will also be abolished, Mr Karousos noted that from now on the instructions of the Ministry of Health will be followed in relation to the use of masks. If the Ministry of Health classifies airport halls as high risk areas, then a mask will have to be used, the Minister said, concluding that otherwise, the use of masks will not be required inside airport premises.
